

New Partnership for Davis Bacon Wage Determinations

The U.S. Government Printing Office (GPO) has partnered with the Department of Labor (DOL) and the National Technical Information Service (NTIS) to provide permanent public access to Davis Bacon Wage Determination information.

[Wage Determinations OnLine](#) (WDOL) is the official Federal Acquisitions Regulation (FAR) mandated Web site that contains both current and archived wage determinations. Users can search for a determination or browse by state and county. Archived determinations are available from 2000 forward.

Permanent public access to the Davis Bacon Wage Determinations is ensured through the partnership; therefore, GPO's Davis Bacon site will redirect users to the WDOL site.
